

For our Erfurt-Weimar Airport location, we are looking to fill the following position:

■ Aircraft Avionics Technician EASA Part-66 CAT B2 for Gulfstream G650 (m/f)

Your tasks

- Conducting scheduled and unscheduled maintenance activities on aircraft in the airframe/engine area
- Independent installation of components onto assemblies according to technical drawings and work instructions
- Apportioning tasks to the employees and briefing on the work
- Installation tasks and function tests according to regulation
- Monitoring and inspection of the tasks conducted
- Triage of unscheduled maintenance tasks
- Conducting repairs in the area of aircraft electronics
- Correct documentation of all maintenance tasks

Your profile

- Several years of experience as Certifying Staff B2 in the servicing of large, civil aviation aircraft and their engines in the line and base maintenance area on the aircraft type: • Gulfstream G650
- Relevant knowledge of aircraft electronics setup
- Knowledge and experience with manufacturers' documentation (AMM and IPC)
- Good EDP skills especially with WINGS maintenance software (would be an advantage)
- Good knowledge of written and spoken English for correspondence
- Good knowledge of aviation regulations (LBA, EASA, FAA)
- Class B driver's license
- Confident decision-making and communication performance
- Readiness for team-oriented collaboration and employee leadership
- Great ability to work under pressure, flexibility, and a conscientious, proactive work approach
- Readiness for travel and shift duty

We look forward to receiving your complete application documentation – preferably by email – to jobs@haitec.aero including desired salary and possible start date.
