

Press Release

HAITEC APPOINTED HONEYWELL AEROSPACE DEALER AND SERVICE CENTER

First Airbus A319 with new JetWave™ System to be delivered in autumn 2016

Hahn Airport, 23rd of May, 2016. HAITEC Aircraft Maintenance GmbH has signed a contract with Honeywell Aerospace to become a Dealer and Service Center for a range of innovative Honeywell products.

"The contract allows us to benefit from Honeywell's broad range of products of cabin and cockpit solutions for different type of Business Jets", confirms Frank Rott, CEO HAITEC Aircraft Maintenance GmbH. "We are now able to offer our customers solutions beyond classic aircraft maintenance and cabin refurbishment for all types of Airbus Corporate Jets, Boeing Business Jets and Gulfstream G550/650 jets at our VIP facility at Erfurt Airport in Germany."

Under the agreement, HAITEC offers Honeywell technologies, such as the JetWave™ System IntuVue 3-D Weather Radar, Smart Traffic Collision Avoidance Systems (TCAS) or the Ovation Select™ Cabin Management System. In addition, HAITEC will be able to service customers with Honeywell avionics technology such as the Enhanced Ground Proximity Warning System (EGPWS), Smart Runway and Smart Landing or the Next-Generation Flight Management System.

"We are very excited about these new opportunities. Sales & Marketing activities will start immediately, giving our customers the opportunity to upgrade their aircraft as soon as possible. HAITEC already developed a Supplemental Type Certificate (STC) for the installation of Honeywell's JetWave™ System. Two Airbus A319, expected to be fitted with new JetWave™ System in autumn 2016, will be the first Business jets benefiting of this technology", says Rott.
